GET MOVING
TO END POLIO

Our goal is to raise funds to continue Rotary's key humanitarian priority of totally ridding the world from polio, a terrible, paralysing disease that can kill or severely disable children. By taking part in Get Moving to End Polio, you are making a difference to the lives of millions of children.

The only way to end polio is together

For over 30 years, Rotary has been working hard to rid the world of polio. Tremendous progress has been made but with over 400 million children receiving around 2 billion doses of polio vaccine we need your help to make history by ending polio everywhere now and forever.

In 1985, when Rotary began its pledge, there were 125 polio endemic countries.

Today, there are now just two, Pakistan and Afghanistan.

rotarygbi.org/donatepolio

RFUK Charity No. 1002059

What is Polio?

Polio mainly affects children under the age of 5.

Rotary has helped immunise 2.5 billion children globally since 1985.

Every £1 raised will be matched by an additional £2 from The Bill & Melinda Gates Foundation.

It costs just 20p to protect a child with a life changing polio vaccine.
