

ROTARY IMPACT DAYS

MAKE AN IMPACT IN YOUR COMMUNITY

FRIDAY
SEPTEMBER 19

To support the amazing work our clubs and members are doing around Great Britain and Ireland, Rotary is organising a programme of **IMPACT DAYS**, aimed at broadening people's access to new volunteering projects and opportunities, nationally and locally.

We're now partnering with the Canal & River Trust to run an Impact Day in Rotary District 1210, which is open to all local Rotary Clubs and Direct Members.

WHERE

Canal & River Trust

Harecastle Tunnel South, Chatterley Rd,
Tunstall, Stoke-on-Trent ST6 4PX

canalrivertrust.org.uk

WHEN

10.00am – 3.00pm

Friday 19th September 2025

Arrival and welcome from 9.30am. Please bring your own packed lunch and refreshments for this environmental volunteering event.

WHAT'S INVOLVED

You'll join a small team of volunteers to help clear and maintain the canal towpath and site access. Activities may vary depending on specific site needs but could include collecting plastics, vegetation management and general maintenance. Comfortable clothes and footwear are recommended. All essential tools and PPE will be provided.

WHY

The Canal & River Trust look after 2,000 miles of waterways across their network, and several Rotary Clubs have already adopted a stretch of their local canal or river. Your volunteering will help the charity support essential access to waterways and green spaces to benefit local communities and canal users, provide natural habitats for a diverse range of plants and wildlife, and preserve the heritage of the canal network.

SCAN TO REGISTER

You'll need to sign up in advance as we've got limited spaces for this fun volunteering event – so register now to book your place.
